

## Dr David GOW – NZ

Dr David Gow is a consultant neurologist at the Dunedin Public Hospital, New Zealand.

Dr Gow has been instrumental in an innovative review and reformation of the consent process. He worked across many services to simplify and reduce risk that was in the previous consent process, resulting in a new fit-for-purposes consent form for house officers.

He has made a significant contribution to the ongoing education of junior doctors by being an exceptional prevocational educational supervisor. Dr Gow has enhanced house officer learning by developing a stimulating and varied program of weekly teaching sessions.

Dr Gow is always available to assist with problems on an individual basis.

Dr Gow is an outstanding educator who is passionate and committed to enhancing the learning of junior doctors, and innovatively improving processes and systems.
