

Dr Andre TRAN – SA

Dr Andre Tran is currently an intern at the Southern Adelaide Local Health Network, South Australia.

Dr Tran is nominated for his outstanding work during his intern rotations in the ENT Surgery Unit and General Medicine rotations at Flinders Medical Centre.

He has demonstrated his dedication to providing high quality care to patients, and undertaking his responsibilities to an excellent standard. He works exceptionally well in a multi-disciplinary team demonstrating an approachable and supportive rapport.

He has made significant contributions to medical student teaching including the initiation of face-to-face and virtual teaching, and supplementing clinical placement experiences due to the reduction of some medical services due to COVID-19.

Andre is a Clinical Associate Lecturer for University of Adelaide, and is also Co-director and Curriculum Head for UMed Tuition assisting in the tuition and preparation of secondary students hoping to gain entry into medical schools.

Dr Tran has published as first author in *BMC Anaesthesiology*, and is co-author of an article to be published in *BMC Trials* as part of an ongoing randomised multi-centric trial protocol.

Dr Tran's other projects include developing a new learning resource regarding aerosol precautions for Personal Protective Equipment and Advance Life Support resuscitation during COVID-19.

Andre is co-chair of the Adelaide Student's Society of Critical Care and the Adelaide University of Surgical Society, and his contribution to education and training has been recognised by the award of Clinical Associate Lecturer of the Year by the Adelaide Health Simulation centre.
